

AI Resume Analyzer Report

Match Score: 20.87%

Resume Score: 38.35/100

Detected Skills: python, c++, sql, data analysis, power bi, tableau

Missing Skills:

AI Feedback:

Strengths:

- Good Python knowledge is visible in the resume.
- SQL skill adds value for analyst and backend-related roles.
- You have reporting and dashboard skills, which are useful for analyst roles.

Suggestions for Improvement:

- Add cloud exposure such as AWS, Azure, or GCP.
- Add backend/API project experience using FastAPI or Flask.
- Mention deployment or containerization tools like Docker.
- Add Git/GitHub project collaboration details.
